

## Canada Distribution Network

NewsWire's Canadian distribution circuits are disseminated to stock exchanges & regulatory authorities, investment communities, news agencies, newspapers, radio, television, financial databases, and websites throughout Canada. NewsWire provides targeted and saturated distribution of your news to the media and investment communities in Canada, fulfilling disclosure requirements for companies traded on Canadian exchanges.

This distribution offers exclusive partnership with The Canadian Press which means we provide our clients with distribution to Canadian Press' newsroom editorial system.
