FOR IMMEDIATE RELEASE

HUNTRIDGE FAMILY CLINIC REOPENS DOORS WITH NATIONAL HEALTHCARE NON-PROFIT

Healthcare organizations come together to provide premier public health services to those in the Las Vegas communities.

(LAS VEGAS, NV) – After unforeseen circumstances, Huntridge Family Clinic is proud to announce it will resume operations with CAN Community Health (CAN), providing patient-centered, cost-effective, evidence-based, personalized, high-quality care on an as-needed or preventative basis, regardless of gender, race, religion, sexual orientation, or sexual identification for individuals in the Las Vegas communities.

For over 30 years, CAN has provided specialized medical care, serving patients in Florida, Arizona, New Jersey, South Carolina, Texas, and Virginia, and outside its service area in Alabama, California, Colorado, Georgia, Illinois, New York, and North Carolina.

“CAN is wholeheartedly committed to offering exceptional care and specialized medical services to every community member. We are eager to work with Huntridge Family Clinic and reestablish the care that the community knows and loves”, states CAN President and CEO Dr. Rishi Patel.

CAN has delivered quality care, increased viral suppression, lowered rates of STD/Hep C infections, improved quality of life in communities, and continue to seek collaborative relations with local, state, and national partners to remove treatment barriers for all individuals in care.

“The Huntridge family and team is grateful to CAN Community Health for their unwavering support and leadership, and we continue to serve our mission with them,” states Rob Phoenix, founder of Huntridge Family Clinic.

ABOUT CAN COMMUNITY HEALTH

CAN Community Health (CAN) is a not-for-profit, community-based organization with clinics in Florida, Arizona, New Jersey, South Carolina, Texas, and Virginia. CAN provides medical, pharmacy, dental, case management, mental health, and comprehensive prevention and services such as nPEP, PrEP, and education. CAN also provides screening and treatment for Hepatitis C and STDs, as well as transgender health services.

ABOUT HUNTRIDGE FAMILY CLINIC

The mission of the Huntridge Family Clinic is to provide individualized high-quality, compassionate care regardless of gender, gender orientation, gender expression, sexual orientation, sexual identity, race, ethnicity, or religion. We seek to transform access to care by providing exceptional healthcare for the LGBTQIA+ and Allied communities through a harm reduction lens.
