MEET THE 8 GROUNDBREAKING STARTUPS

From biotech to quantum, drones to AI, these startups represent the cutting edge of Korean innovation entering the U.S. market.

1. Genesis Quantum Inc. (GQT Korea)

Providing quantum solutions for secure communication and biosensing through photon detection, QKD systems, and LiDAR.
www.genesisqt.com

2. Dynamic Industry

Recycling end-of-life solar panels with high-purity recovery of silicon, silver, and other valuable materials.
<https://dynamicindustry.kr/>

3. ILIAS AI

Creator of the "Digital Sniffer Dog," an AI-powered detection system for illicit substances.
<https://www.iliasai.com/>

4. Lessengers Inc.

Delivering next-generation optical interconnects with photonic wire bonding for high-speed, energy-efficient data centers.
<https://www.lessengers.com/>

5. Narma Inc.

Building VTOL drones for medical delivery, logistics, surveillance, and long-range operations.
<https://www.narma.co.kr/>

6. Celliaz Inc.

Developing a gene therapy that regenerates the retina and restores vision in degenerative retinal diseases.
<https://www.celliaz.com/>

7. ILIAS Biologics Inc.

Advancing exosome-based therapeutics for acute kidney injury and other CNS and inflammatory diseases.
<https://www.iliasbio.com/>

8. VSPHARMTECH Inc.

Transforming radiotherapy with breakthrough therapeutics for solid tumor patients.
