

MDT AutoSave for networked devices

Make a program change you wish you hadn't?

MDT AutoSave Change Management Software enables you to “undo” the change and restore program data within seconds.

Lose the only copy of the device program?

AutoSave ensures that if a program is lost due to device failure, power loss, etc., the most current copy of program logic can be automatically retrieved so plant operations can be restored quickly and correctly.

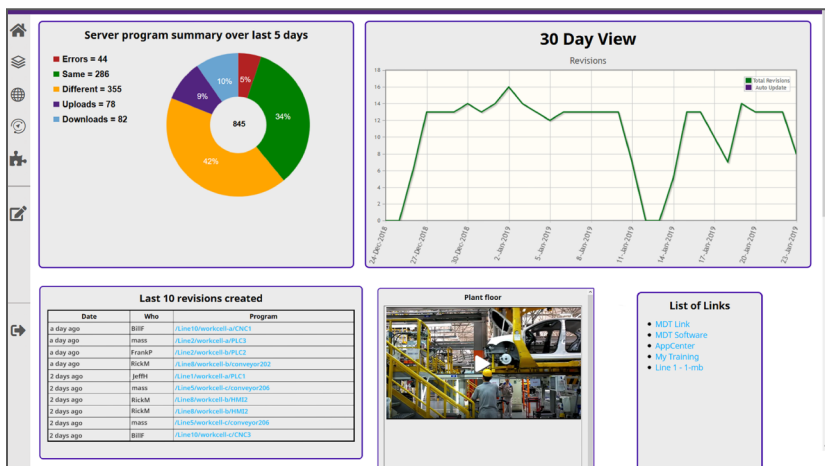

Not sure if the program running is the right one?

AutoSave can validate the program running in the processor matches the reference program you designate. This enables you to detect and identify changes that may have been unknown or unauthorized, thereby protecting your process, people and equipment.

AutoSave provides complete control over device programs, including:

- The capability to perform detailed comparison of any two versions of a program.
- Central storage of all program versions
- Electronic approval and audit trails
- Flexible user permissions

Need to view device change data, anytime, anywhere?

The AutoSave Decision Support Portal enables you to view data through a web interface, on workstations, laptops and mobile devices.

- Program activity
- Program comparison details
- Success or failure of device program compare results
- Custom webpages
- Live video feeds and more!

Interacting seamlessly with editor packages, AutoSave empowers users to:

- reduce errors and downtime
- increase productivity
- protect users and assets
- identify specific modifications.

PLANT-WIDE SUPPORT

AutoSave supports any PC-based application and the most comprehensive range of devices and editors in the industry from:

- Schneider Electric
- FANUC
- Bosch Rexroth
- Motoman
- Denso
- Siemens
- Wonderware
- Omron
- Kuka
- Kawasaki
- Mitsubishi
- Rockwell Automation
- GE
- B&R Automation
- Atlas Copco and more.

OUR CUSTOMERS

The world's largest manufacturers safeguard their plant automation systems with AutoSave, including

- 3M
- Abbott Nutrition
- AstraZeneca
- BHP Billiton
- Chevron
- Coca Cola
- Fiat Chrysler Automobiles
- General Mills
- Glaxo Smith Kline
- Hexel
- Hyundai
- Heathrow (BAA)
- Honda
- Johnson & Johnson
- Mars
- Miller Coors
- Nestle Purina
- Procter & Gamble
- Rio Tinto
- SAB Miller
- Suncor Energy
- Toyota
- Under Armour
- Water Corporation (Australia)

MDT's strategic partnerships with automation vendors

MDT works closely with these automation leaders to provide the tools and support needed for the development of value-added applications that have proven compatibility with their offerings.

Collaborative Automation
by

MDT SOFTWARE

Since 1987, we have enabled global industry leaders to gain control of escalating automation challenges through effective management of device programs. Our AutoSave software products effectively control program versions and minimize downtime of automation devices resulting in a secure, controlled automation environment.
