Dear Sales:

Congratulations! Effective March 22 your batch manifest software product, Accumanifest, 1.11 is certified for Cycle S of the MAC™ Batch program. Your batch manifest product complies with the presort and manifest regulations set forth in Issue 300 of the *DMM*® and *Publication 401, Guide to the Manifest Mailing System*.

Accumanifest, 1.11, is validated for the following Batch categories:

MAC Batch Automation Flats - Tray Based Option
MAC Batch Automation Letters

Also enclosed is the official MAC Batch Certificate. The product identified on the MAC Batch Certificate is validated through Cycle S; however, validation will be voided if there are any significant changes or enhancements to the presort or manifest logic of version 1.11 of Accumanifest.

If you have any questions or need additional information, please contact the BMA Certification Department at 800-331-5746.

Sincerely,

A handwritten signature in black ink that reads "James D. Wilson". The signature is written in a cursive style with a large, looping initial "J".

James D. Wilson
Director, Addressing and Geospatial Technology
