NEWHAVEN DISPLAY LAUNCHES NEW TECHNOLOGY BLOG

Covering a wide range of engineering topics related to the digital display industry

Elgin, IL | April 08, 2021 – Newhaven Display announced the launch of their official blog. It covers a wide range of topics related to the digital display industry as well as educational content and company updates.

Newhaven Display's blog satisfies the niche in the digital display industry of customers and engineers seeking an engaging source of information. The blog's wide range of content establishes Newhaven Display as both a global supplier of display technology and a reliable educational resource. Readers can expect new topics and regularly updated posts.

FEATURES AND BENEFITS

- Insights on trending topics related to display technology, engineering & development, and more
- Interactive guides on display technology including OLED, TFT LCDs, and touch screen displays
- A responsive, knowledgeable team dedicated to answering questions and responding to reader input
