

# ADS Bundled Initiative Compliance Platform

## Get Ready for Incentives...Get Set to Eliminate Penalties...Go!

ADS - in collaboration with NJ-HITEC™ - is pleased to announce the ADS Bundled Initiative Collaboration (BIC) Platform to help you comply with programs that can both offer incentives and issue penalties on reimbursements.

For example, there are Medicare incentives for EHR Meaningful Use (MU), and incentives / penalties affecting Medicare reimbursements for reporting or not reporting PQRS data. And, new CMS programs such as Chronic Care Management (CCM) and Transitional Care Management (TCM) now also offer incentives to participating physicians.

Most practices may not even know programs such as CCM and TCM exist, much less on how to obtain related incentives. And while MU and PQRS may be more familiar, gathering the needed data for each and reporting or attesting could be daunting as well. Even if done correctly there are no guarantees on not being audited.

As one of the nation's leading federally designated Regional Extension Centers, **NJ-HITEC can work with practices in any state, as does ADS.**

The ADS BIC Platform supports:

- Accurate and **audit-proof attestation** for Stages 1 and 2 Meaningful Use (MU)
- Perfecting the **Specialized Registry** menu requirement for Stage 2 MU
- Physician Quality Reporting System (**PQRS**) data submission to CMS for clients
- Identifying additional opportunities for enhanced revenue through initiatives such as CMS' Chronic Care Management (**CCM**) and Transitional Care Management (**TCM**) programs

Under the ADS BIC Platform umbrella, there is no need to (1) miss out on what can be **thousands of dollars in practice and physician-based CMS incentives**, and (2) to be **penalized for not reporting** CMS-requested data.

Contact ADS for more information on the Medics Solutions Suite, and on the ADS BIC Platform and any per-state incentives limitations.

- MedicsDocAssistant™ V.7.0, ICD-10 compliant and certified as a complete EHR for Stage 2 MU
- MedicsPremier™ for comprehensive, ICD-10 compliant PM
- MedicsRIS™ for radiology practices
- MedicsRCM™ for practices that prefer outsourced RCM services

*See why thousands of physicians  
rely on systems from ADS!*
