PRESS RELEASE

## **Sacramento Dentistry Group Introduces Dr. Will Koett**

Sacramento, California — November 25, 2015 — [Dr. Brian Steele](#) and the Sacramento Dentistry Group are pleased to announce that Dr. Will Koett is now one of the capable dentists working in their downtown office. Dr. Koett grew up locally in Folsom, California, and graduated from Sacramento's Jesuit High School. He followed that with a baccalaureate from San Diego State University and completed his dental training with the University of the Pacific. Dr. Koett comes from a family of physicians and dentists, but selected a career in dentistry to spend more time with his family, which includes his three sons.

Dr. Koett's favorite procedures revolve around endodontics, the art of repairing the inner parts of the tooth. So while patients may dread the thought of [root canal treatments](#), Dr. Koett looks forward to seeing the medical relief these procedures provide, saving vital teeth for further use. When a tooth is irretrievably lost, however, Dr. Koett is especially impressed with the recent improvements made in [dental implant](#) technology. Through the modern facilities provided at the Sacramento Dentistry Group, he is prepared to assist restoration clients to get back their teeth, their smile and their sense of confidence with dental implants.

Outside the dental office, Dr. Koett volunteers as a youth sports coach for football, basketball and baseball teams. He can therefore explain from experience the value of [customized mouthguards](#) for protecting the teeth and oral tissues. On this issue and others, Dr. Koett bases his recommendations on what he would do for his own family, giving confidence to his patients that they are receiving the best treatment possible.

To meet Dr. Will Koett, schedule an appointment with him at the Sacramento Dentistry Group through the website [sacramentodentistry.com](http://sacramentodentistry.com), via the phone at 916-538-6900 or at the [downtown office](#) on 1105 E Street in Sacramento.
