VALUE

INNOVATION

100 YEARS & COUNTING

One of the oldest and most respected names in the home furnishings industry.

MAINE

Since 1996, our Maine facility has been using the advanced technology of Van De Wiele CRM looms to weave quality rugs. These looms produce some of the finest quality BCF and Heatset Polypropylene rugs in America. We are one of the largest employers in Southern Maine and the fastest growing producer of quality rugs in North America.

GEORGIA

Located in Northwest Georgia, our facility has been manufacturing tufted area rugs for over 30 years. This division offers fashionable area rugs at a value price with the service of a domestic supplier.
