

SimpliShade™

BULK FILL FLOW

Single-Shade Simplicity Meets Superior Adaptability

Reach every area of the tooth's anatomy while saving time with SimpliShade Bulk Fill Flow. Requiring just one shade to match all 16 VITA® classical shades, SimpliShade Bulk Fill Flow easily adapts to the cavity floor – with exceptional durability and depth of cure.

Kerr™

ONE SHADE IS ALL IT TAKES

Get the adaptability, durability, depth of cure, and simplicity you need with SimpliShade Bulk Fill Flow.

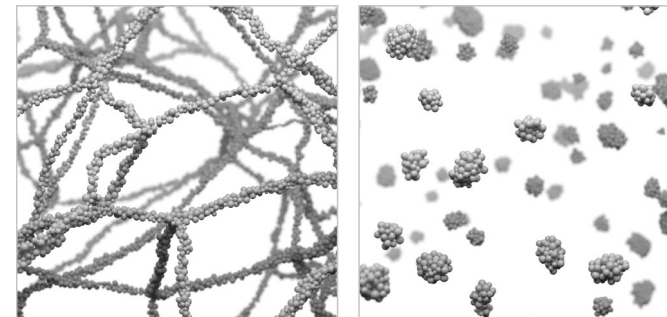

ART³: A NEW WAY TO BULK FILL

Achieve lifelike restorations with the next generation of clinically-proven Adaptive Response Technology (ART) found in Harmonize™ and SimpliShade Universal Composite. Powered by Enhanced Adaptive Response Technology, SimpliShade Bulk Fill Flow offers easy handling and low shrinkage.

Flowable Features Single-Shade Simplicity

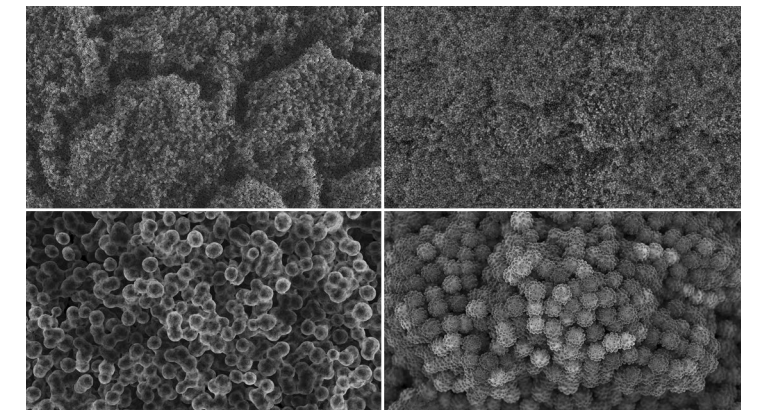

-  **One-Shade System**
Using one shade that blends seamlessly with all 16 VITA® classical shades, SimpliShade Bulk Fill Flow saves you time selecting shades and managing inventory.
-  **Save Time**
Simplify your workflow with just one step to cure up to 5mm, before adding a capping layer.
-  **Go with the Flow**
Fill every area of the tooth's anatomy with a self-leveling bulk fill flowable that easily adapts to the cavity floor.
-  **Lower Shrinkage**
Helps assure a long-lasting restoration with lower polymerization shrinkage and shrinkage stress when compared to other bulk fill brands.
-  **Add Confidence**
Restore confidently with a flowable bulk fill composite that offers comparable or higher mechanical strength than the competitors.

Adaptive Rheological Response Technology for Ease of Sculpting

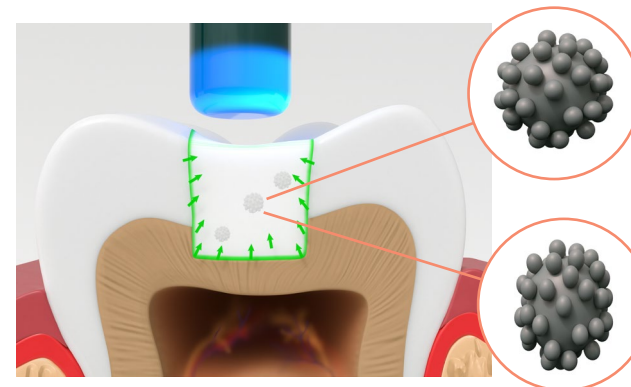

ART³ uses rheological modifiers that reduce the composite's viscosity as you manipulate it. When you're done shaping, viscosity recovers and anatomy stabilizes before light-curing – reducing the need for resculpting.

Adaptive Color-Blending Response Technology for Beautiful Blending
Achieve exceptional blending with special nanofillers that mimic enamel structures and interact with light in a natural way. The restoration and tooth become virtually indistinguishable.

Human Enamel

SimpliShade Bulk Fill Flow

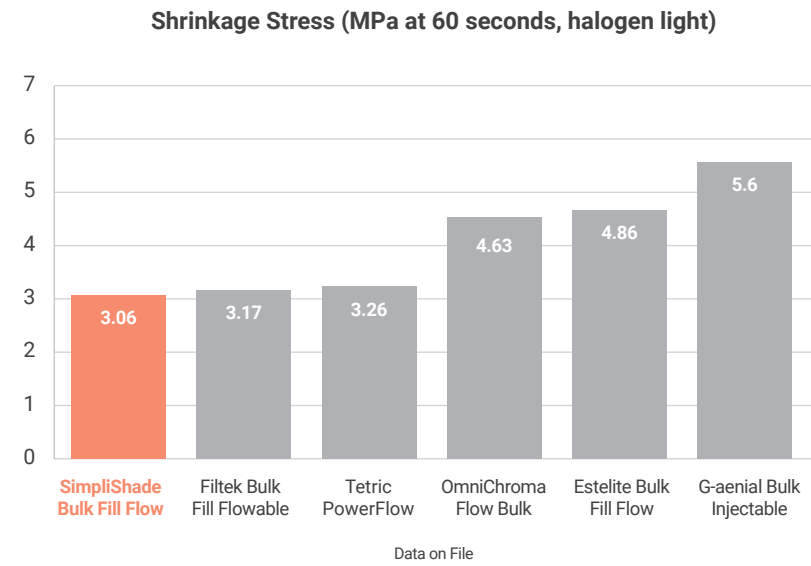

Adaptive Shrinkage Stress Response Technology for Durable Results

Increase confidence in long-lasting restorations. ART³ relieves interfacial stress between the filler and resin matrix during curing. Less stress on the adhesion layer allows for enhanced marginal adaptation.

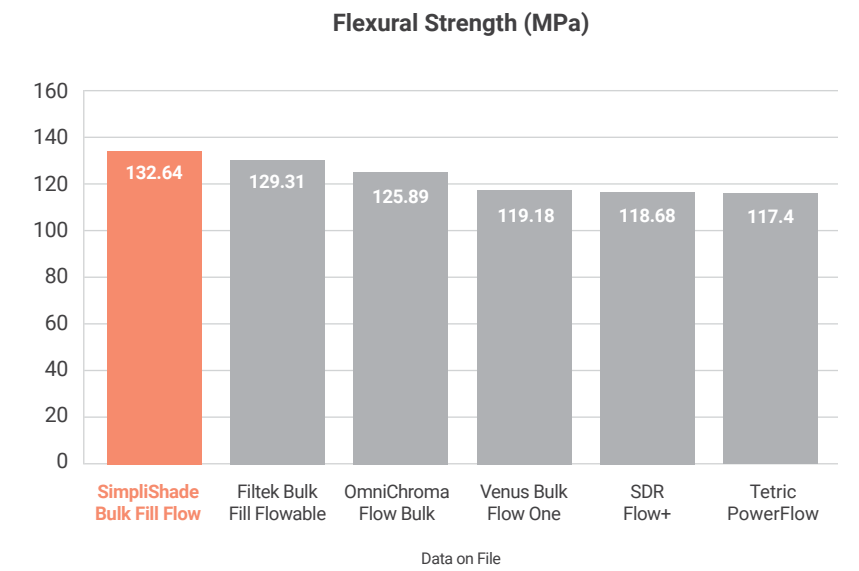

Shrinkage Stress

SimpliShade Bulk Fill Flow offers lower shrinkage stress than Filtek™ Bulk Fill Flowable, Estelite® Bulk Fill Flow, Tetric™ PowerFlow, G-aenial™ Bulk Injectable, and OmiChroma Flow Bulk, resulting in lower marginal degradation and postoperative sensitivity for a long-lasting restoration.

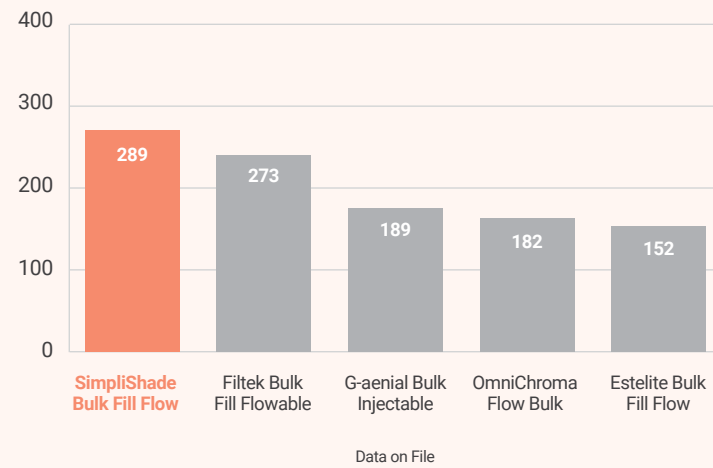

Mechanical Strength

SimpliShade Bulk Fill Flow has comparable or higher mechanical strength than SDR® Flow+, Filtek Bulk Fill Flowable, Tetric PowerFlow, OmniChroma Flow Bulk, and Venus® Bulk Flow One, resulting in better resistance to chipping and fracture over time.

Radiopacity (AI%)

Radiopacity

Tests show that SimpliShade Bulk Fill Flow provides higher radiopacity compared to Filtek Bulk Fill Flowable, Estelite Bulk Fill Flow, G-aenial Bulk Injectable, and OmniChroma Flow Bulk. Higher radiopacity enables clinicians to easily identify restorations radiographically.

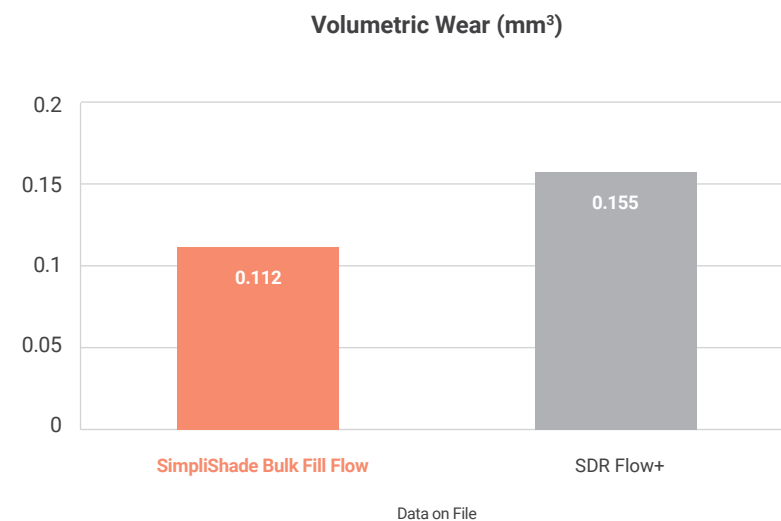

Adaptation

Easily adaptable, SimpliShade Bulk Fill Flow fills every area of the tooth's anatomy.

Wear

SimpliShade Bulk Fill Flow offers a lower wear rate at interproximal contacts than SDR Flow+. Low wear rate results in a long-lasting restoration.

KEEP IT SIMPLE

Choose SimpliShade Bulk Fill or SimpliShade Universal Composite for your capping layer.

Ordering Information

SimpliShade Bulk Fill Flow

Part #	Item Description
37207	SimpliShade Bulk Fill Flow Syringe
37208	SimpliShade Bulk Fill Flow Unidose 20 Pack

For your capping layer, keep it in the family with the full line of SimpliShade products!

SimpliShade Bulk Fill

Part #	Item Description
37201	SimpliShade Bulk Fill Composite Syringe
37202	SimpliShade Bulk Fill Composite Unidose 20 Pack

SimpliShade Universal Composite

Part #	Item Description
37001	SimpliShade Universal Composite Syringe, Light
37002	SimpliShade Universal Composite Syringe, Medium
37003	SimpliShade Universal Composite Syringe, Dark
37004	SimpliShade Universal Composite Syringe, Bleach White
37005	SimpliShade Universal Composite Syringe, Universal Opaque
37006	SimpliShade Universal Composite Unidose 20 Pack, Light
37007	SimpliShade Universal Composite Unidose 20 Pack, Medium
37008	SimpliShade Universal Composite Unidose 10 Pack, Dark
37009	SimpliShade Universal Composite Unidose 10 Pack, Bleach White
37010	SimpliShade Universal Composite Unidose 10 Pack, Universal Opaque

For an ultra high shine finish, use Kerr's line of Spiral Polishers!
