PRESS RELEASE

## Dean Smith of Active Air Freight Encourages Charity Support

NATIONWIDE OFFICES OF ACTIVE AIR FREIGHT, LLC — Dean Smith of Active Air Freight, LLC, an international shipping provider with offices across the United States, encourages active charity support on the part of companies, employees and clients. Smith, the leader of the Active Air Freight corporation, has carefully selected a number of charities with excellent records of service and low expense overhead to ensure that donations and contributions to these organizations are well spent in the service of their intended beneficiaries.

### Charities Supported by Active Air Freight

Currently, Active Air Freight supports these charities with annual donations or the provision of transportation services. Each charity is prominently mentioned on the Active Air Freight website at "<http://activefreight.com/charity/>". More information is available via links from our website regarding the operations of each of these charities, which lean towards projects supporting veterans services, animal rescue and worldwide veterinary services for the poor and displaced. The list of charities, which is growing, includes:

- **USO** — the premiere service organization for U.S. military members, the USO is a congressionally chartered non-profit seeking to boost the morale of service members worldwide.
- **Wounded Warriors** — Focusing on veterans wounded in either mind or body by their battlefield experience, Wounded Warriors concentrates on providing mental and family care, transitional job training and support in dealing with the physical consequences of their injuries.
- **Pets for Patriots** — Encourages and assists veterans to adopt at-risk shelter animals the might otherwise face elimination or a lifetime living in the limited shelter environment.
- **NORSLED, Free-Spirit Siberian Rescue, Alabama Siberian Husky Rescue, Northern Lights Sled Dog Rescue and MaPaw Siberian Husky Rescue** — All of these organizations support abandoned and at-risk Siberian Husky dogs in locations across the United States. Like Dean Smith of Active Air Freight, you can support them by volunteering, donating or by adopting or fostering rescued dogs.
- **World Vets** — A worldwide veterinary service organization, World Vets helps animals and people through disaster relief, veterinary training programs in poorer countries and veterinary services for communities in need.
