Who We Are

Triumph Foundation exists to help children, adults, and Veterans triumph over Spinal Cord Injury/Disorders. Our goal is to help people maximize their recovery from life altering accidents and disorders. We find solutions for people to increase independence, improve self-efficacy, and reintegrate back into the community.

We do this by providing resources, hope and security to people living with paralysis. We are there initially when the injury/disorder occurs and as a lifelong support network, providing a continuum of care to patients after acute care. Additionally, we hold events that are a captivating force within the entire community. We are the go-to organization for people living with mobility impairments in Southern California.

Our Impact

Since our inception in 2008, Triumph Foundation has touched the lives of over 5,000 individuals with disabilities. This is done primarily through:

- * *Lead 12 Support Groups that meet throughout Southern California*
- * *50 trained peer mentor Ambassadors that regularly visit 18 hospitals and rehabilitation centers*

Triumph primarily focuses on people that have Spinal Cord Injury and those living with neuromuscular diseases that cause paralysis. Many of our programs are open to any person dealing with disability. Our outreach supports people of all backgrounds and demographics. We provide resources and assistance to people across the United States, but the majority of our outreach activities take place in Southern California.

Triumph Foundation also works to educate the general population about people living with disabilities, inclusiveness, and guidance on dealing with life challenges.

We specialize in motivating and inspiring all to live a life of purpose.

Our History

Triumph Foundation was founded by Andrew Skinner and his wife, Kirsten, in 2008. In 2004, shortly after graduating from college, Mr. Skinner suffered a spinal cord injury in a snowboarding accident in Lake Arrowhead. Mr. Skinner broke several vertebrae in his neck, rendering him a quadriplegic. After years of extensive physical therapy, Mr. Skinner regained considerable function and felt destined for a mission to help others who have suffered injuries like him. Andrew and Kirsten founded Triumph Foundation with a simple desire: to bring hope, resources, and mentorship to people who are dealing with paralysis.

Every year 10,000-20,000 people suffer spinal cord injuries in the United States. There are millions of people living in America today that suffer from paralysis. The disabled population is the fastest-growing minority that anyone can become a part of at any time. No one plans ahead for a devastating injury that causes paralysis, because no one thinks it could happen to them. When something tragic does occur, people are not prepared to deal with the challenges. Triumph Foundation assists these individuals to triumph over the obstacles they face.

Triumph Foundation is a chapter of United Spinal, the national spinal cord injury association; and is the Los Angeles Paralympic Sport Club.
