

MAKING HEALTHCARE BORDERLESS

I. GLOBAL PROBLEMS

01. Healthcare system is often **expensive, cumbersome, and unavailable** for most of people worldwide

02. Difficult **access** to best **doctors**

03. Difficulties in **transfer of patient data** (health history) from clinic to clinic

04. **Opacity** in **charity** mechanisms (not fully transparent and often ineffective and inefficient health charities)

II. OUR SOLUTION

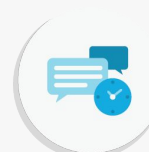

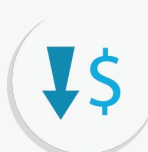

WELL is a global healthcare blockchain platform.

Who we are

WELL is globalizing healthcare and eliminating country borders to directly connect healthcare specialists and patients worldwide.

We are creating a token of on-demand healthcare that solves the current problems of cross-border payments, data accessibility and payment risk, while allowing the areas with the worldwide highest quality of healthcare to serve the entire world.
