

The DriveDOCK Extreme hands-free docking solution provides a high quality transport installation using the Iridium Extreme PTT Service. Combined with BEAM's wireless or corded Push-To-Talk (PTT) Handset Accessory Kit, it extends the power of the Extreme® PTT Device to the palm of your hand, whether in or out of a vehicle.

The BEAM PTT handset kit (wireless or corded) is ideal for various applications such as Emergency Services, Commercial Transportation, Mining Industry, Defence, Government, no matter the type or size of operation, you can depend on the BEAM PTT to perform.

Wireless Push-To-Talk Handset Kit PTT-W1

BEAM's **PTT-W1** is a powerful communication device that can transmit and receive audio for up to 300+m/1000+ft away from your vehicle. It is the perfect partner for your Iridium Extreme® PTT device. It provides clear and improved audio quality over the loudspeaker in the handset.

DESIGN: Durable mic/speaker handset, enhanced clear audio, talk in or out of the vehicle, simple intuitive design.

Corded Push-To-Talk Handset Kit PTT-C1

BEAM's **PTT-C1**, is a cost effective PTT solution that supports all features of the phone and PTT modes of the Iridium Extreme® PTT service. It also supports handsfree speakerphone or the privacy handset attached to the unit, making it ideal for fixed vehicle installations.

DESIGN: Rugged mic/speaker handset, improved audio quality, supports Iridium phone and PTT modes.
