QuantaSTAT
Your Data Lifeline

QuantaSTAT is safeguarding community health 360°, 365 days per year, 24/7-at home, at work, at school, and at play. QuantaSTAT provides emerging technologies to fill the gap in medical logistics and communications with proprietary GPS technology today. We, like you, are committed to improving the lives of everyone through secure, HIPAA compliant, medical response technology, ensuring organizations have the most effective tools to react in real time to changing conditions during routine and emergency situations.

The QuantaSTAT collaborative process, solutions, and platform provides the ability to track the health, location, and status of patients and assets securely, anytime, and anywhere.

QuantaSTAT 360 Team module

Whether at a healthcare facility, work, school, or event, businesses need a strategy to mitigate COVID-19 risk. The QuantaSTAT 360 Team module is a HIPAA-compliant COVID-19 monitoring solution that helps everyone efficiently and securely pre-screen any individual, including employees, visitors, and attendees, before they even set foot in the door. The Teams module helps leaders demonstrate that they are taking every individual's health seriously and providing tools to keep them safe.

QuantaSTAT 360 First Responder module

The QuantaSTAT 360 First Responder module is designed for the challenges First Responders face in the race to provide better care more effectively. Save lives in rapidly changing conditions during mass casualty events or everyday scenarios. Improve your response by reducing triage time, tracking patients, and keeping real-time situational information accessible as it develops. QuantaSTAT is NEMSIS compliant and can integrate with the National Response Agency Databases, ePCR (Patient Care Record) support, and custom in-house systems that support secure data sharing. QuantaSTAT First Responder will bring public safety additional capabilities to collect and track vital patient information in the field. The QuantaSTAT First Responder app is now listed and available to FirstNet subscribers.

QuantaSTAT 360 Healthcare Workflow module

The QuantaSTAT 360 Workflow module is an integrated platform that aligns staff movements with care delivery sequences to simplify patient workflows. The platform and application capture and share important metrics from the moment a patient arrives at your department—helping your team make more informed decisions that reduce patient wait times, improve room turnovers, and expedite care delivery.

QuantaSTAT 360 Asset and Inventory Management module

The QuantaSTAT 360 Tagless Asset Management module is more than just a hospital tracking system – it is a centralized data center that integrates with EHR, providing actionable location and condition data across the entire healthcare facility and system. QuantSTAT offers unparalleled customer service with dedicated customer success strategists. Hospitals, doctors, and medical staff do an extraordinary job of taking care of patients. QuantaSTAT does an extraordinary job of supporting your team.

QuantaSTAT 360 Elder Independence Module

Preserve the autonomy of older adults and seniors while mitigating COVID-19 risk with QuantaSTAT 360 Elder Independence Module.

The QuantaSTAT 360 modules are all interrelated and can be used individually or together to create a 360-degree view of community health starting at home, then to work, school, or play. QuantaSTAT will provide the module free to schools in our effort to support the future of our community at large, our children. QuantaSTAT helps make chaotic moments calm.
