Smyth Jewelers Brings Tag Heuer's Autavia Isograph Collection to Timonium Store

In addition, the luxury retailer presents customers with five-year financing options on all Tacori jewelry for a limited time only.

MARYLAND, June 12, 2019 (Newsire.com) - For over 100 years, Smyth Jewelers has worked to provide the East Coast with an unparalleled selection of designers and the luxurious white-glove service that befits a jewelry store of their stature. This month, the jewelry retailer offers several promotions and events that will help their customers find (and finance) the accessory of their dreams.

Tacori Five-Year Interest Free Financing

Until June 30th, Smyth Jewelers will offer five years of interest-free financing on all [Tacori](#) bridal and [fashion jewelry](#) purchases that total \$1,500 or more. Although diamond center stones are not included in this financing promotion, the retailer also offers a separate 12 month interest-free financing plan for diamonds.

This means that customers looking to get engaged or married in the near future can save on their dream diamond and [setting](#) without having to compromise on style or quality. Additionally, those interested in adding a new Tacori piece to their collection can space out their payments, which can make it easier to pay it off during the five-year period.

Please note that all financing options are available with approved credit only.

Tag Heuer Happy Hour

On Thursday, June 13th Smyth Jewelers will add [Tag Heuer's](#) Autavia Isograph line to the Timonium location. To celebrate, the retailer will host a product launch party at the jewelry showroom with the Smyth Jewelers team and their customers. Celebrate the launch of the Autavia from 5-8PM with drinks and hor d'oeuvres, and shop for a Father's Day gift that Dad will love at the same time!

Thanks to an innovative carbon-composite hairspring built into each [timepiece](#), the Autavia is lightweight, anti-magnetic, shock- and temperature-resistant. The hairspring also gives the watch a smooth and consistent movement. The word "iso" in Greek means equal, and this hairspring combined with Tag Heuer's Calibre 5 makes Isograph a fitting name for this handsome watch.

As the largest jewelry store on the East Coast, [Smyth Jewelers](#) makes it a priority to offer the best collections and promotions to their discerning clients. For more information about the events, promotions, or brands available at the retailer, contact the store directly by calling (410) 252-6666 or sending an email to info@smythjewelers.com.

About Smyth Jewelers
