February 29, 2016

Dan Duncan Joins CBORD® as Vice President of Accounting and Finance

Ithaca, New York — The CBORD Group, Inc. today announced Dan Duncan has joined CBORD® as Vice President of Accounting and Finance, reporting to CBORD's President, Max Steinhardt, and will serve as a member of the CBORD executive team.

Duncan is transitioning into the role under the direction of current Vice President of Accounting and Finance and twelve-year CBORD veteran, Lucy Staley, who has announced her retirement as of July of 2016. Ms. Staley's work at CBORD spanned an extraordinary period of growth and success for the company, including the merger of CBORD into Roper Technologies.

As a Certified Public Accountant and accomplished Senior Financial Leader with extensive experience building and transforming finance within software companies, Dan Duncan will develop and implement the strategic goals of CBORD's executive management team, overseeing human resources, contracting, and all accounting and finance functions.

Duncan is an expert in financial planning, analysis, forecasting, budgeting, systems implementation, and software revenue recognition. He joins CBORD from a thirteen-year career at HealthMedX in Ozark, MO where he was the Chief Financial Officer and the Vice President of Finance.

"CBORD has benefitted from outstanding financial management and oversight for all of its long history. Dan Duncan will provide the qualities CBORD requires to maintain this tradition of excellence in our complex business. Dan's depth of expertise, particularly in the area of software, and his experience both as a CPA and in general business management are impressive," said Steinhardt. "We are delighted he can join our team."

Prior to HealthMedX®, Duncan began a sixteen-year start to his career at KPM CPAs and Advisors, Springfield, MO, where he managed auditing and consulting services in a variety of industries, after receiving a bachelor's degree in accounting from Missouri State University.

About CBORD

CBORD powers technology solutions for higher education, healthcare, senior living, and business campuses enabling users to create optimal experiences for their students, patients, employees, and residents. Guided by customer-centric development and support, CBORD has pioneered software for dining operations, nutrition analysis, security, card systems, and housing for over forty years.

CBORD operates as a unit of Roper Technologies, a constituent of the S&P 500®, Fortune 1000®, and the Russell 1000® indices. Roper designs and develops software (both software-as-a-service and licensed), and engineered products and solutions for healthcare, transportation, food, energy, water, education, and other niche markets worldwide.
