Partner

About Us

Snuvik Technologies is a leading IT firm known for delivering cutting-edge technology services in Business Intelligence & Analytics, Oracle Agile PLM, Oracle ERP, ServiceNow and Enterprise Mobility. We provide System Integration services, Application Management services, Consulting services, Implementation services and Custom Development services to our customers.

Why Choose Us

We can help your enterprise rise above inefficiencies and achieve:

- Flexibility and scalability to adapt to changing business conditions
- Better service levels and higher agility
- Access to technology innovation
- Improved security, business resilience and compliance

Pharma Footprint

We specialize in implementation of Agile PLM / RMW for our clients. It includes **Recipe, Equipment, Material Management** and **Analytical Data Capture** that is a big challenge in pharma industry today.

New Product Initiation (NPI) processes can be greatly streamlined with **Agile PPM** implementation.

We are experts at **Business Intelligence / Big Data Discovery** solutions and can build specific solutions for you.
