ALEX Velocity™ Receives Defense Innovation Award

Dumfries, VA: ALEX – Alternative Experts (ALEX), an ISO 9001:2015-certified solutions provider to Government, Defense, and Commercial industries is honored to receive a 2019 TechConnect Defense Innovation Award.

Recipients of these awards demonstrate technologies with high degrees of positive impact on national security and the warfighter.

Velocity’s suite of artificial intelligence capabilities was ranked in the top 15% of submitted technologies for the upcoming Defense TechConnect Innovation Summit & Expo on October 8-10, 2019 in National Harbor, Maryland.

Velocity™ uses multiple AI technologies to quickly answer questions, provide clear insights, and instill confidence in decision making.

“We’re proud to be recognized as an innovator in artificial intelligence and data analytics,” said CEO Monica Joseph, “Velocity is positively impacting our national defense and ALEX’s data science team is focused on that cause.”

As part of the award ALEX has also been selected to participate in the AI/Data Technology Challenge. The past and potential future impacts of Velocity’s data analysis technologies will be pitched to a panel of private sector and defense stakeholders on Wednesday, October 9.

In addition, ALEX will exhibit at Booth 302 at the Expo on October 8-9 with live demonstrations of Velocity’s capabilities.
