

FACT SHEET:

SENECA FIRE ENGINEERING WILL JOIN COFFMAN ENGINEERS

Experienced principal adds forensic fire engineering services to Coffman's capabilities

Coffman Engineers is expanding its forensic fire engineering capabilities by welcoming Seneca Fire Engineering, a leading forensic fire protection engineering consulting firm.

Highlights

- ▶ **Seneca Fire Engineering, LLC**, a Georgia-based fire protection engineering consulting firm specializing in fire engineering forensics, executed a Letter of Intent (LOI) on June 18, 2024, to join **Coffman Engineers, Inc.** (Coffman).
- ▶ Seneca Fire Engineering is targeting a July 31, 2024 closing date to finalize an asset purchase agreement with Coffman.
- ▶ **Dan Arnold, PE, FSFPE**, the managing partner of Seneca Fire Engineering, will join Coffman as a Principal Advisor. He will continue to conduct investigations and serve clients as before.
- ▶ Clients can contact Seneca Fire Engineering the way they always have.

What This Means

- ▶ Clients of Seneca Fire Engineering will continue to benefit from working with Dan Arnold, a highly respected fire protection engineer who has specialized in fire engineering forensics for more than 25 years.
- ▶ Clients also access the greater capacity and fire protection engineering resources offered by Coffman's team of over 118 fire protection engineers and designers across the country.
- ▶ Seneca Fire Engineering strengthens Coffman's ability to serve clients nationwide with comprehensive forensic fire engineering investigations and litigation support services with multidiscipline capabilities.

A Longstanding Partnership

- ▶ Coffman and Seneca Fire Engineering have a successful collaboration that spans over four years. This acquisition formalizes our partnership, reinforcing the stability of our relationship and establishing a powerhouse team in fire protection engineering investigations.

About Coffman Engineers

Coffman Engineers integrates many engineering disciplines and specialty services to offer clients the local, personalized service of a small firm backed by the capabilities typically found with large engineering consultants. Coffman began as a seven-person structural firm in 1979 and has grown in geographic presence, markets, and engineering services. Today, Coffman is proud to be an ENR Top500 engineering firm while remaining true to founding values and focusing on the success of clients and employees.

Coffman's Atlanta, Georgia office offers acoustics, civil, mechanical, electrical, and fire protection engineering for projects throughout Georgia and the Southeast region. The office collaborates with Coffman's 20 other office locations to offer multidiscipline services nationwide.
