

Plan and Prepare for COVID-19 Vaccine

Dispense

Reconcile

Reports

Protect Vaccine Integrity and Potency with Temperature Control

- ▶ Integrate Ultra Low and Standard digital data loggers with real-time monitoring
- ▶ Receive real-time temperature alerts via email and/or text message

Ensure Compliance by Simplifying Complex COVID-19 Vaccine Workflows

- ▶ Automate workflows to adhere to complex COVID-19 vaccine expiry tracking
- ▶ Track multi-dose vial puncture times, freezer/fridge time in and out of storage, and receive near expiry alerts to minimize loss
- ▶ Ensure first to expire use through dose scanning
- ▶ Record lot, expiration, and dose number to patient with wireless scanner

Provide Inventory Transparency

- ▶ Track every COVID-19 vaccine dose, from receipt to patient administration
- ▶ Report inventory in real time with dose usage and days remaining calculations
- ▶ Avoid stock outs with low inventory alerts and quickly reallocate stock to high demand areas with site to site transfer

Enhance Patient Safety

- ▶ Quickly scan every item barcode to confirm the correct dose and expiration
- ▶ Reduce errors with EHR interface and intuitive graphical user interface displaying item images and vital information to avoid pick errors
- ▶ Receive missing vaccine suggestions from immunization schedule and automatically check for common vaccine errors before dispensing

All-Inclusive Inventory Control Solution

- ▶ Manage entire inventory with one solution, for medications, vaccines, and supplies
- ▶ Reduce waste, loss, and discrepancies with automated scanner-based workflows for receiving, dispensing, and reconciling inventory
- ▶ Track every lot and expiration and receive low and critical inventory alerts

Optional Add-ons

- ▶ **340B Support** – Automate the capture of 340B utilization data and leverage built-in compliance reports that track every dose by invoice, payor, and provider
- ▶ **Central Hub Management** – Implement a central hub or pharmacy workflow; create and track internal transfers for efficient stock allocation across multi-site facilities

Technical Specifications:

- System:
 - Enterprise-grade, industrial designed all-in-one PC system
 - 15" TFT LCD display with PCAP multi-touch technology
 - Built-in VESA shelf or wall mounting option
- Size: 14.2" wide x 8" deep x 10.9" tall, 13.2lbs
- DDL: Supports ultra-low freezer (-70°C), freezer (-20°C), refrigerator (2-8°C), NIST calibrated
- Scanning:
 - Wireless Bluetooth scanner, 30 ft range
 - 2D/1D scan engine supports NDC and UPC barcodes
 - Includes drop-and-charge cradle, 50,000 scans between charges
- Network: Ethernet & WiFi communications
- Portal: Cloud-based access to MyAccuSite.com, provides enterprise inventory insights and management
- Notifications: Proactive alerting suite with email and text, includes low and expiring stock alerts
- Security: SOC2 Type 2, HIPAA compliant security
- Access: Secure authentication with integrated fingerprint reader
- Support: 24/7 customer service
- Warranty: Maintenance and repair included
- Optional: Cellular (3G LTE) communication and battery back-up
