**INNOVATING DENTISTRY
ONE CATEGORY AT A TIME**

COLLAGEN m e m b r a n e

TBS Collagen Membrane is an absorbable dental membrane for guided soft tissue regeneration made of purified collagen without cross-linking or chemical treatment. **TBS Collagen Membrane is biodegradable and absorbed within 24 weeks after implantation.**

STABILITY

- Excellent tear resistance
- Prolonged barrier function and duration

TISSUE INTEGRATION

- Excellent assistance for fast blood supply to the defect
- Lower incidence of soft tissue dehiscence

HANDLING

- Non-directional, either side can be placed over the defect
- Fast hydration
- Excellent tensile strength
- Excellent adaptation to various defects due to outstanding flexibility.

ALLOGRAFT b o n e i n a s y r i n g e

TBS Allograft Bone Particulates create a natural framework that provides an optimized environment for the regeneration of vital bone for ridge preservation. **Now, in a syringe for easier delivery to the defect.**

REGEN

PREMIUM BLEND

- Mineralized 50/50 Cortical-Cancellous blend
- Allograft Particulate Size 250-1000 µm

SAFETY

- Mineralized portions from each lot sourced from a single donor to reduce cross-contamination risk
- Sourced within the US from FDA registered tissue banks, accredited by the American Association of Tissue Banks.

JOIN THE MISSION

EMPOWERING SMILES, SUPPORTING HEROES:

At TBS Dental, we believe that making a positive impact extends beyond the world of dentistry. We are proud to support our nation's heroes through our partnership with Wounded Warrior Project®.

TBS Dental is proud to be a corporate partner of WWP, providing wounded veterans and their family members access to free programs and resources in mental health, financial and career counseling, and long-term rehabilitative care.
