

M0xchain Hackathon 2022

Fact Sheet

<p>What:</p>	<p>M0xchain Hackathon 2022</p> <p>The free virtual event that happens on February 20th is an initiative by M0xchain to find and encourage developers and studios worldwide to create innovative projects by integrating games into their blockchain solution sets.</p>
<p>Who:</p>	<p>M0x</p> <p>M0x is a suite of solutions that will allow seamless integration of the traditional gaming industry with blockchain, NFTs, and the crypto economy. Developed by a global Consortium of Companies, M0xchain abstracts all blockchain complexity and dynamics, so game developers can focus on their game and leave decentralization and economy to M0x. It also comes with a full pack of SDKs and APIs to make the transition fast and smooth, as well as its own set of ready-to-use tools, like a wallet, a market place and much more!</p>
<p>When:</p>	<p>M0xchain Hackathon registration begins January 18th, 2022 and the Hackathon happens in February 18th, 2022</p>
<p>About the move</p>	<p>Participants will have the chance to interact with top professionals from the global consortium of companies that collaborate on the development of M0xchain.</p> <p>The best projects in the categories "Game Development," "NFTs & Design," and "New Economy Models" will be awarded a generous prize. The winners will be entered into the M0xchain Hall of Fame, having their brand and name present in advertising, events, and M0xchain presentations, with a strong chance of participating in the M0x Metaverse Council.</p>
<p>Unique Highlights:</p>	<p>M0xChain is a native blockchain protocol built from scratch to suit the unique need of the gaming industry:</p> <ul style="list-style-type: none"> • Fully customizable, super-fast, and with free transactions • Easy integration of blockchain elements in any game • NFTs, play to earn, in-game currencies, etc. <p>Educational Lives will present easy How-tos from the NFTs creation to the implementation in real game projects in some of the most popular Game Engines platforms like Unity 3D and others.</p>
