

Dear _____,

Those of US on the left and right have found common ground on the issue of school shootings. While we don't agree on much, **100% of US agree kids should not be murdered at school.**

Congress has shown us you can work together on this issue, but your work is not done until *100% of school shootings are prevented and 100% of students are protected.* We may not agree on how to fix this issue, but we agree that it *IS* an issue which must be resolved NOW.

Your job in Congress is to legislate to protect the American people, but our kids are dying in shooting after shooting and it must stop. Now is the time to solve this . . . before another school shooting, **before more lives are lost because Congress didn't do enough.** We will not tell you *how* to resolve this issue, instead we will tell you *when* to do it—**We demand Congress enact further legislation that stops students from being murdered by guns at school**—and to do it NOW.

Act by November 1st, we go to the polls November 8th.

We demand Congress enact *further* legislation that stops students from being murdered by guns at school by **November 1st, 2022.**

XOXO,

P.S. We Vote November 8th, 2022.

Thanks for pledging to write letters to Congress!

It may not feel like much, but writing letters to our legislators is one of the best ways to be heard. And the leaders in the US Senate are about to hear from a lot of US . . . *thousands of US* . . . all at the same time! We get louder with every voice, so tell your friends and ask them to make a pledge to write letters too.

**XOXO,
100% of US**
