March 6 2020: With an eclectic range of sounds and a wealth of special guests — **HOT TRASH** channels the star-power of Bowie, festival friendly vibes of The Hives and the innovation of Beck. A star-studded line-up, '**Las Vegas**' to be released March 6 – has featured guest **Matt Sorum** on drums (Guns n' Roses, Velvet Revolver) and is produced by grammy award-winner **Dallas Austin** (TLC, Michael Jackson, Usher and CeeLo). The band also consists of **J Bowman** (Michael Franti, 2Pac, Cake), **Rocco Gardner**, **Kelly Halloran** among others.

HOT TRASH was formed by violinist, singer-songwriter **Kelly Halloran** and musician **Rocco Gardner** after making the unlikely connection while Rocco was producing the ESCAPE to New York Festival. The two quickly became friends deciding to make a record together at Dave Catching's (Queens of the Stone Age/Eagles of Death Metal) **Rancho de la Luna** studio in Joshua Tree, under the name *Your New Crush*.

Deeply inspired, Rocco bought a nearby property forming his own state-of-the-art recording studio Skyline Studio at [Rancho V](#) in Pioneertown, CA. Rancho V became a popular retreat for artists like *Bob Moses*, *The Arctic Monkeys*, *Paolo Nutini*, *Peaches*, *Jan Blomqvist* and more.

The band released their debut **Hot Trash** album “**Hope in Grace**” in 2018, recorded at Rancho V. The new band name was concocted and adopted one night walking home in New Orleans when Rocco and Kelly saw their small project expanding.

Joined by a host of producers and artists (*Dallas Austin, Matt Sorum, Dan Heath, Eric Zayne, Nikko Gibler amongst others*), the band started working on their second record.

Their latest single ‘**Las Vegas**’ has already garnered massive support from **Las Vegas Golden Knights, The Raiders, MGM** and many more who feature in the insanely fun video clip including **Carrot Top, Chef Hubert Keller, McLaren, Alesso** and more!
