

FELCO[®]
SWISS  MADE

The FELCO saw range is expanding

FELCO is proud to announce the launch of a new range of folding saws, designed to meet the needs of both professionals and experienced amateurs.

Four new models of folding saws have been added to this product category. Developed on the basis of the emblematic FELCO 600 model, but completely redesigned and improved, the FELCO 601, 602, 603 and 604 saws open up new horizons for folding saw enthusiasts.

Performance, Sustainability & Ergonomics

The new range offers several saw blade geometries, suitable for various pruning jobs across: vineyards, landscaping, arboriculture and more. It also meets the needs of nature and outdoor activity enthusiasts.

The teeth have been optimized to facilitate chip removal, while the blade chrome plating reduces friction and increases performance. Each saw tooth tip is impulse heat treated to increase the hardness and extend the longevity of the blade.

The handle has a comfortable soft touch grip to always keep your hand in perfect cutting position.

Main features

NEW

Easy Opening System

- Easy one-handed thumb opening system

NEW

Secure blade closure

- Blade locking system that prevents unintentional closing

Optimized design

- Rounded thumb rest

Handle

- Handle ergonomics optimized for a perfect grip
- Comfortable and light
- Anti-slip and phthalate-free grip

Blade

- Solid chrome steel blade
- Pulse hardened teeth
- Optimized tooth geometry for efficient cutting and chip removal
- Easy blade adjustment and replacement

FELCO 601

50 mm
2 in.

120mm
4.7 in.

With its 120 mm straight blade, the FELCO 601 is perfectly suited to the needs of professionals working in vineyards and nurseries, but also to those who enjoy outdoor activities.

FELCO 602

75 mm
3 in.

160mm
6.3 in.

Equipped with a 160 mm straight blade, the FELCO 602 saw is perfectly suited to the needs of landscapers, agricultural professionals and demanding home gardeners.

FELCO 603

100 mm
3.9 in.

200mm
7.9 in.

With its 200 mm curved blade, the FELCO 603 saw is ideal for the needs of landscapers and arboriculture professionals for pruning at height.

FELCO 604

120 mm
4.7 in.

240mm
9.5 in.

The FELCO 604 saw has a 240 mm curved blade, the longest in the range. It is capable of performing large diameter pruning and trimming work, as required by arborists or in arboriculture.

Based in Geneveys-sur-Coffrane (canton of Neuchâtel) Switzerland, FELCO SA is a global leader in professional pruning shears and cable cutters. The Swiss company was founded in 1945 by Félix Fisch. Today, still in the hands of the founder's family, it employs 200 people and produces more than one million hand-held tools and 200,000 industrial tools every year, 90% of which are exported to more than 100 countries. The company is particularly committed to sustainable development, both internally and externally.
