*Since family mediation in Florida has become mandatory for divorcing couples with children, these families are now seeking alternative means to costly court battles and expensive litigation. iMediate Inc provides its clients with price sensitive conflict resolution in a safe and comfortable environment.*

WEST PALM BEACH, Fla. -- iMediate Inc., under the brand name iChatMediation, provides mediation to families who wish to avoid costly court litigation in cases of divorce, separation and child custody disputes. There have been tremendous cuts in legal aid for divorcing couples seeking assistance and iChatMediation fills that gap by providing a cost conscious service to those in need.

[iChatMediation](#) is a professional mediation service founded by Matthew Brickman in the state of Florida. Matthew Brickman has been certified by the Supreme Court of Florida as a county civil family mediator who has worked in the 15th and 19th Judicial Circuit Court since 2009 and 2006 respectively. His company specializes in online mediation by video conferencing live resolution via iChat using Cisco's WebEx communication platform. This allows the parties involved to mediate from the comfort, safety and convenience of their own home. The service is especially useful for those with active restraining orders or orders of protection.

These parties typically wish to end a marriage or negotiate child custody; however there are other reasons in which people seek mediation services. For many people mediation is a voluntary process. In the case of Florida divorce, the Florida marriage laws have recently changed. Couples who reside in the State of Florida, have children and file for divorce, must mediation with or without an attorney according to Florida Statute 61 set forth by the Florida Legislature.

iMediate Inc. is a company consisting of only State Supreme Court certified mediators, with ongoing yearly continuing education who are updated on the latest laws, trends and changes in the statutes governing family mediation. Its mediators absorb the knowledge and experience it's founder brings to the table so that their clients can benefit from it.
