WELCOME TO THE BRIDGE

WELCOME TO

Building Bridges

Since the beginning of time, mankind has strived to overcome limits, to create things that never were before.

In this pursuit for progress and innovation humanities most priceless resource is collaboration.

Collaboration between the 'innovators' and the 'visionaries', between the 'creator' and the 'seller', the 'maker' and the 'doer', each equally important chapters of a success story.

By connecting these key elements we have created a bridge of serendipity that transcends limits and borders and takes your companies journey of innovation further than ever before.

The Bridge allows global startups and growth stage companies to showcase their investment opportunity to investors, funds and family offices around the world.

We believe that the journey is as important as the destination, that is why we built The Bridge around 5 important pillars:

1. Exclusive Investor Community

The Bridge is uniquely supported and in partnerships with many of the leading Sovereign Wealth Funds, Family Offices, Investment Funds and U/HNWI around the world. This exclusive position allows us to showcase you and your company directly, providing them with the gold standard of deal flow.

2. Matching Technology

Individual investors, Family Offices and Large Investment Funds all carry their own mandates. These can be driven by industry type, stage of company, ticket size requirement or geographical interests. The Bridge was built to allow these Tier 1 investors the ability to filter and be matched with companies that fit exactly their current mandates when looking where to deploy their funds.

Connecting with sophisticated, institutional investors can be tremendously difficult. The Bridge has created a portal in which you can be viewed and approached by the worlds leading investors.

3. Investor Anonymity

Privacy is incredibly important to investors when sourcing the right companies in which to be investing. Many of the problems faced by investors in a digital world is too much deal flow. The Bridge allows investors to choose to be private in their evaluations and open discussions only with those companies where they have a very strong wish to invest.

4. Due Diligence

Like you, we like to be surrounded by the best. Our dedicated team has an easy yet selective listing process which ensures that when investors are viewing your profile it is coming with a stamp of approval and you are already qualified.

5. Video Pitch

The delivery of an idea is often as important as the idea itself when raising capital. That is why on your company profile page we created the video-pitch in order to get a quicker and in depth vision on the company, the leadership, and the idea.
