Configuration based on vehicle's needs. Designed for minimal visual impact. Not to scale

Extreme Long-Range Radar Detector With Laser Elimination

The R9w is Uniden's ultimate "Driver Awareness System". Our most powerful and comprehensive radar detection and laser elimination system. Independent tests show that R9-Series is the only solution that surpasses all challenges reliably. Uniden has raised the gold standard, again.

Featuring extreme long-range performance, Quad Blackfin® DSPs (Digital Signal Processor) for the fastest processing and accuracy in the market, and dual antennas gives you full 360° radar directional awareness. Also, Wi-Fi, Bluetooth, GPS, R/TACH app support, and our speed and red-light database, etc. And the R9w features Auto Learn which greatly reduces false alerts over time giving you the quietest ride. Armed with our exclusive proprietary technology, the R9w has unparalleled performance while being undetectable.

Designed for a stealth aesthetic, your car remains the center of attention. Our professional installers will tailor a custom solution for you. The R9w is your guardian angel. When you're being watched, you say "I see you too." #ICU2
