GALLERY

GALLERY

Gallery COLLECTIONAL is a Collectible Design Gallery that explores the lines between art and design, representing artists and designers from around the globe and showcasing unique pieces.

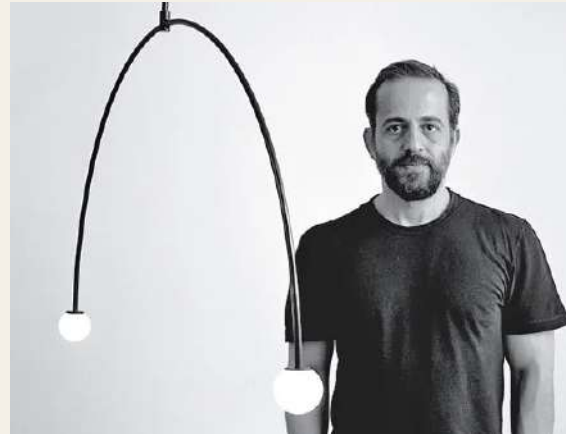

Each curation creates an invocation to anticipate unlimited possibilities. Beauty and form blurring the lines of functionality and materiality. Historical icons in conversation with the contemporary and shifting the discourse into the future. Light, density, and ephemerality all in dynamic tension. The minimal and the voluptuous, and the exquisite harmony of both, together.

Join us on this journey to experience the unexpected ways that design evolves, innovates, and inspires.
