About AccelerateH2O:

We are singularly focused on overcoming barriers and limitations to innovating water and the deployment of technology to address critical challenges for citizens, consumers, businesses, and communities. The Texas water technology accelerator was established as a 501c3 statewide initiative to organize the innovation capacity of academic, industry, entrepreneurial, public sector, and investment expertise to spark immediate solutions to the ongoing drought and growth prospects demanding additional sources of water, and to generate efficient and economic solutions in Texas and the Southwest US unique marketplace. More about AccelerateH2O can be found at www.accelerateH2O.org

About InvestH2O:

InvestH2O is our ongoing forum of connecting the best technologies, products, services, and integrated solutions with investors, procurement decision-makers, water managers, and collaborative partners in the private and public sectors. In 2015 and 2016, InvestH2O convened 125 and 250 water and water technology attendees respectively, and attracted 20 and 45 emerging, growth technology firms to pitch their capabilities, applications, and investment needs. Through our ongoing platform, AccelerateH2O and InvestH2O connect interested parties, incubators/accelerators, and end-users with a broad spectrum of investment scenarios including pre-commercialization, equity, project, and infrastructure opportunities in Texas and increasingly the Southwest U.S. More information on InvestH2O can be found at www.investH2O.com
