The EPL-SLSW-3P-XL-1.0.1 from Larson Electronics is an Explosion Proof Selector Switch that is suitable for preventing the ignition of external, flammable atmospheres in hazardous locations. This 600V-rated unit features a long barrel design with maintained operation and supports three positions (left, center, right). The explosion proof device comes with a 1/0/1 nameplate marking and is designed for 1/2" thick walls.

The EPL-SLSW-3P-XL-1.0.1 is rated for Class I, Divisions 1 & 2; Class I, Zones 1 & 2; Class II, Divisions 1 & 2; and Class III facilities. The maintained contact switch comes with a maximum rating of 600 V AC and features a total of three positions (left, center, right). A 1/0/1 nameplate marking ensures visibility and reduces human error during operation. For protection in hazardous locations, the explosion proof device is constructed of aluminum and stainless steel. During installation, this selector switch is compatible with wall thickness measurements of 1/2".

Applications: Chemical processing facilities, food processing plants, oil refineries, agricultural sites, grain storage facilities, metal processing and more.
