Trusted Answers, No AI Hallucinations

Frontline staff get immediate, role-specific answers through AI-powered search. What's more, AI Digital Assistant only searches material employees already have access to.

Always-on Compliance & Security

Fast answers, backed by security. The AI pulls only from your company's verified content and shows what's relevant to each role—eliminating outdated info, guesswork, and compliance risks.

An Intelligent Sightline to The Frontline

Gain visibility into what your teams are searching for and where they need support. Identify knowledge gaps, reduce repeat questions, and free up HR and Operations to focus on strategic priorities.

Smarter access means stronger teams.

...That's part of an end-to-end frontline digital workplace and training solution.

iTacit is a connection for frontline teams and a toolset to empower managers. The software is jam-packed with unexpected value and provides employee-side visibility to solve even the toughest workplace problems. Our digital workplace and training software is a modern, personalized work experience and a catalyst for digital transformation. It leverages powerful AI-driven search to instantly deliver secure, verified answers from your internal knowledge base.

Turn frontline questions into strategy-shaping insights.

- ✓ Frequently searched topics
- ✓ Training content that's unclear or underused
- ✓ Teams or locations with higher support needs
- ✓ Compliance areas needing reinforcement

Get real-time insights into knowledge gaps.

Employees always receive up-to-date answers aligned with current policies, improving accuracy and compliance.

End repetitive HR questions with your own AI search engine.

Empower frontline staff with self-service AI-driven answers, freeing up your HR and operations teams for strategic tasks.

Connect your users with an award-winning digital workplace and training software.
