

The Smart Solution for Your Imaging Workflow

The voice-activated, smart capability of the DEXvoice system is the latest enhancement to the DEXIS™ Imaging Suite software. As part of the powerhouse DEXIS portfolio, DEXvoice provides hands-free workflows for your dental staff. Practitioners can seamlessly use DEXvoice with the DEXIS software, DEXIS CariVu™, DEXcam™ 4 HD, DEXIS Platinum, DEXIS FS Ergo by KaVo™, and DEXIS Titanium by KaVo.

Easily add voice-activation to your operatories with DEXvoice using any Amazon Alexa-enabled device. The intuitive user commands will direct the DEXIS software throughout the image acquisition and patient consultation process simply by following the sound of your voice.

Spend more time chair side with your patients and let DEXvoice handle the rest.

Alexa, ask My Helper to

Show the last full mouth.

Commonly Used DEXvoice Commands:

“Alexa...ask My Helper to *compare the bitewings of number 19.*”

“Alexa...ask My Helper to *show all of number 4.*”

“Alexa...ask My Helper to *take a PA of number 9.*”

“Alexa...ask My Helper to *take a full mouth series.*”

Try DEXvoice AND receive an Amazon Echo Dot.
Yours to keep after 1 month of paid service!*
