## SYNCA WELLNESS LAUNCHES THEIR PREMIUM JAPANESE BRAND SYNCA WELLNESS IN NORTH AMERICA

---

On October 4th, 2017 Synca Wellness launched its first  
premium branded massage chair - THE **CIRC**.

SYNCA WELLNESS is based out of Osaka, Japan and produces premiere, high-end, health and wellness products.

The CIRC, the first in the line of many SYNCA creations is a premium, small platform, SL-Track massage chair designed for all adults. The SYNCA CIRC brings to the table an elegant look, feel and high quality massage for all adults all packaged in a space saving design.

SYNCA WELLNESS designed the CIRC from the ground up to give you the most ergonomically comfortable seating angle and position. The design of the 106-degree angle between the seat and backrest creates a posture so comfortable you will not want to leave the chair.

SYNCA is the expression of progressive and elegant design infused with real value. Each and every one of the SYNCA creations are driven by modern design innovation and the desire to achieve the ultimate in physical and mental relaxation.

It is our mission at SYNCA WELLNESS to produce high grade, multipurpose products that are simple, yet elegant in design and performance. We will support these outstanding products with unparalleled customer service and support, quick response times and attention to all details. SYNCA WELLNESS will always be the most reliable partner our customers will have.
