

A MARKETPLACE FOR YOUR CUSTOMERS

ZenduONE, A Fully-Featured Platform Integrated With IoT Solutions Drive Real-World Results At The Click Of A Button

WELCOME TO THE ZENDUONE MARKETPLACE!

ZenduONE is a premier marketplace that provides users with complete access to a full range of robust fleet applications. It is a marketplace platform where Zenduit & Partner solutions can be easily installed by the end-user for trial and purchase with a click of a button.

This marketplace provides popular customer add-on solutions for maintenance, cameras, business intelligence offerings, managed services, and much more. Everything is easily accessible by your end customer while allowing you to maintain your value with white labelling options.

ZenduONE embodies a simple, hands-off approach as customers receive training and support directly through the marketplace by ZendulT's experienced support team. You can see all installations, support tickets and manage customers with complete transparency through your ZenduONE back-end dashboard.
