

ezPaycheck Eases Payroll Department Pressure - Update Release Adds Flexibility and Options to Payroll Reporting

Small-business software developer Halfpricesoft.com designed its powerful payroll software to be intuitive and easy to use for any business owner or payroll manager. **30-days free trial** is available from www.halfpricesoft.com

Automating payroll processes and slashing the time it takes to run payroll is now easy and affordable for small businesses with **ezPaycheck**, the payroll software designed specifically for small businesses. The new update version was released to address customers' custom reporting needs. Current users can download this version free from **halfpricesoft.com**.

The update is the software developer's response to customers' requests for increased reporting options. ezPaycheck users can now run reports categorized by employee, pay period starting date, or pay period end date, depending on their needs. Users can also choose the length of reporting period included in each report: weekly, biweekly, semi-monthly, monthly, quarterly, or yearly

"This latest update provides more flexibility for a wider range of customers," said Halfpricesoft.com founder Dr. Ge. "Our customers like ezPaycheck's capabilities and affordability, but a few said they needed more options for reporting - so we gave it to them."

ezPaycheck software automates paycheck processes to reduce time and frustration small businesses spend on running payroll. Even someone not familiar with accounting methods can start running payroll within minutes.

"Running a business is tough enough without the hassles of running payroll and writing paychecks by hand," said Dr. Ge. "ezPaycheck provides business owners and payroll managers with a powerful tool for automating that process at a price that's affordable for any business."

ezPaycheck is available for just \$89 per installation. As with all small-business software from Halfpricesoft.com, ezPaycheck is designed to be easy for anyone to use, regardless of whether they have an accounting background or not. The intuitive graphical interface leads users step-by-step through setting up employee information, importing data, calculating payroll – including calculation of federal, state and local taxes; and deductions for Medicare, insurance and 401(k) plans – and printing paychecks.

Loaded with powerful payroll tools and features

Despite its affordability and ease of use, ezPaycheck payroll software is loaded with powerful payroll features needed by small businesses:

- Customizable payroll reporting dates
- Export reports
- Auto-fill paycheck data, including pay period start and end dates and check printing dates
- Customizable tax and deduction features for unique payroll needs
- Employee list exporting for easy sharing of employee and payroll information with other software, such as ezW2, the popular W2 and 1099 form printing software from Halfpricesoft.com
- Annual income tax rate updates for all 50 states, Washington D.C., and federal taxes
- Intuitive easy-to-use interface designed to make payroll processing simple even for payroll managers without an accounting or computer background
- Multiple options for check-printing formats: check-in-middle, check-on-bottom or check-on-top
- Options for printing Form 940 and Form 941
- Option for masking employee Social Security Numbers on check stubs
- Flexible check report options

Customers ensure satisfaction by trying ezPaycheck Free for 30 days

Customers can download and sample this payroll tax application without charge or obligation for up to 30 days. Customers can thoroughly test drive ezPaycheck since the trial software includes all features and functions of the full version (The only limit is tax form printing function). The free download includes a sample database, so customers don't waste time entering data before sampling ezPaycheck's many features - just upload the sample database and go.

Once customers are certain that ezPaycheck payroll system meets all their needs, they can purchase a license key for just \$89 per installation to activate the software for unlimited use. The ezPaycheck download and license keys are available online at <http://www.halfpricesoft.com/index.asp>.
