

# PDPM BE READY ALREADY!

*Quickly become a PDPM expert in just minutes, not hours*

## PDPM Forecaster

The PDPM Forecaster allows you to predict patient reimbursement levels based on the clinical services and resources they require for sub-acute care.

The survey-style tool prioritizes queries related to the most complex medical conditions first, thereby using the process of elimination to help you expertly gauge the maximum level of reimbursement allowed by CMS guidelines for incoming and current patients.

PDPM Forecaster saves you time and money by standardizing new operational work flow necessary for PDPM compliance. This ready to use solution helps staff transition faster into PDPM by including tool tips and hyperlinks to pertinent CMS guidance documentation.

Category: Non-Orthopedic Surgery and Acute Neurologic

Primary Dx ICD-10 Code: G464 (MDS Item I0020B)

Primary Dx: Cerebellar stroke syndrome

Quick reference to CMI & CMG.

**Function Scores (Section GG)** ← Estimated based on hospital record review or on-site initial review.

Category	Score	MDS Item(s)
Eating	1 - Substantial / maximal assistance	GG0130A1
Oral Hygiene	3 - Supervision or touching assistance	GG0130B1
Toileting	4 - Independent, or setup/cleanup assistance	GG0130C1
Bed Mobility	2 - Partial or moderate assistance	GG0170B1 & GG0170C1
Transfer	2 - Partial or moderate assistance	GG0170D1, GG0170E1 & GG0170F1
Walking	1 - Substantial / maximal assistance	GG0170J1 & GG0170K1

### PT/OT (TO - 1.55/1.55)

Clinical Category: Acute Neurologic

PT/OT Function Score: 13

### Nursing (HBC2 - 2.23)

Nursing Category: Serious Medical Conditions (High)

Qualifying Condition(s):

- Diabetes with Insulin injections for all 7 days & Insulin order changes on 2 or more days (MDS Item I2900, N0350A,B)
- Respiratory therapy for all 7 days (MDS Item O0400D2)

Nursing Function Score: 9

Depression

### SLP (SF - 2.97)

Acute Neurologic Condition

Cognitive Impairment

SLP Comorbidity

- Aphasia (MDS Item I4300)
- CVA, TIA, or Stroke (MDS Item I4500)
- Hemiplegia or Hemiparesis (MDS Item I4900)
- Apraxia (MDS Item I8000)
- Dysphagia (MDS Item I8000)
- Speech and Language Deficits (MDS Item I8000)

Swallowing Disorder (MDS Item K0100)

Mechanically-Altered Diet (MDS Item K0510C2)

Capture the correct information for PDPM. Code your MDS with accuracy to ensure reimbursement.

### NTA (ND - 1.34)

NTA Comorbidity Score: 3

- Active Diagnoses: Diabetes Mellitus (DM) Code (2) (MDS Item I2900)
- Special Treatments/Programs: Suctioning Post-admit Code (1) (MDS Item O0100D2)

Model generated on April 26, 2019
