

## ABOUT US

### Bringing Value And Vision To The Future Of Your Business.

Founded in 2001, Encompass Solutions, Inc. is a professional services organization that provides expertise in ERP and related business application systems.

Our mission is to provide a professional services practice skilled in business consulting, project management, and software implementation that offers clients a complete business solution focused on high levels of customer service, industry expertise, and value available to the North American manufacturing industry.

We believe a strong partnership promotes a clear understanding of client needs. Supported by a sound project execution methodology, our work together ensures success in meeting your system and business goals. We are the high-value alternative to in-house resources for ERP software implementations, project management, business development, software selection, and process improvement.

## GET IN TOUCH

Finding the right solution starts with a disciplined and insightful understanding of the underlying problems. The Encompass team has the experience, the diligence and the expertise to clearly identify your company's requirements and develop the correct solutions.

Contact us to discuss how we can help shape the future of your business.

## WHY CHOOSE US?

Encompass Solutions, Inc. can help you get started on the road to constant, controlled business and systems improvement. Our full System Audit process will identify "hot spots" for lack of efficiency, training issues that are causing downstream problems, better reporting, incremental technology, and "next step" improvements.

The process is done on-site, beginning with an in depth review of your current set-ups and processes, followed by interviews to determine pain points in your user and management communities. We'll finish with a documented assessment of your implementation and recommended changes for enhanced system use.
