

FOR IMMEDIATE RELEASE

## **DRAIN THE SWAMP** Card Game Planning Expansion Packs!

After it's explosive launch in October 2017, the first-ever, Liberal-leaning card game, continues to offer laughing relief from the daily anger and angst of political news, by taking hilarious aim at the current Administration and its cast of "Swamp" dwelling characters. But to keep up with the news, the "No Collusion" Expansion Packs are about to go into production, for release in late April 2018!

Parsippany, NJ – April 3, 2018

Can you tell *Facts* from "*Alternative Facts*?" Do you think you know the difference between *Real* and "*Fake*" News? Is Politics making you a little *crazy*? Feeling helpless?

Well now, 48% of the country can take back control and have a ton of fun, playing the hilarious new game, **DRAIN THE SWAMP** Card Game. "**DRAIN THE SWAMP**" underscores the absurdity in today's politics while poking fun at many of the key personnel in and around the White House today. Players must answer different types of questions, worth varying points, about members of the administration, as well as attempt to **COMPLETE THE TWEET**(s) of "**you know who**" to win the game.

Co-Founder, Scott Cooper said, "What's really wild about DTS is that players may often have difficulty distinguishing between actual quotes and events, and the crazy, humorous ones we made up for the game! It's an added challenge we didn't even plan for and it gets harder every day to tell the difference!"

Cooper's partner and co-founder Fred Schnitzer said, "Everything changes so much from day to day with events, resignations, firings and tweets. It's been hard to keep up with. We literally added and edited cards right up until we went into production on the inaugural game. As new cards practically 'write themselves' every day, we are really excited about the 'No Collusion' Expansion packs targeted for release in April 2018"

"This is gonna be a bigly hit, believe me!" – Anonymous Source

A portion of the revenue from the sale of this game will be donated to the leading charity fighting hunger in America and we are working on fund-raising with DACA organizations.
