**Western Technology Officially Launches the New Explosion Proof LED BRICK 3.0**

[Western Technology, Inc.](#), a Washington-based company has designed and manufactured best-in-class portable LED and UV work lights for every safety and sanitary demand in the US for over 42 years. They originally launched its BRICK 1.0 in 2012, and it instantly became the most versatile, portable, and explosion-proof light on the market. Western Technology is proud to announce the new and improved [BRICK 3.0](#) is now available. The BRICK has proven, reliable BIG light performance in a compact, explosion-proof unit combining LED lumens with state-of-the-art optics. The BRICK 3.0 is now built with “on-site” cable replacement features. The classic Western Technology green is featured on its new patent-pending Bend Radius Sleeve on the cable connections point. The BRICK is the perfect choice for your portable work site lighting needs. With so many accessories, mounting options & stands available, it’s built to allow the user to easily position and adjust this light into any workplace.

Designed to perform under the most rigorous operating conditions, the BRICK was the first in Western Technology’s ever growing KICK IT TOUGH line. The BRICK has proven reliable with BIG light performance in a compact Explosion Proof unit combining LED lumens with state-of-the-art optics. The classic Western Technology green is featured on its new patent-pending Bend Radius Sleeve on the cable connections point. Offering numerous mounting options the BRICK is built to allow the user to easily position and adjust the light into the most challenging of work spaces.

Western Technology’s LED Brick 3.0 certifications include:

- Wet Location
- Portable Luminaire UL844
- Explosion Proof
 - Class I, Div 1 & 2, Groups C & D;
 - Class II, Div 1 & 2, Groups E, F, & G
- Low Voltage (LVLE)
