

Cybolt Rapidly Expands Its Reach in U.S. With Its Second Merger Within a Month

Cybolt's Exciting New Partnership With Cyber Guards

Cybolt, a leading provider of cybersecurity services in Latin America, announced its integration with Cyber Guards, a Tennessee-based company specializing in managed cybersecurity services and network security solutions. This marks Cybolt's second integration within a month, highlighting its rapid growth trajectory in the U.S. Prior to this, Cybolt had integrated with Pontis Research Inc., a California-based firm with expertise in Identity and Access Management (IAM) and risk management. Cyber Guard's integration with Cybolt accelerates its dynamic expansion in the U.S., with plans to go public in the next five years.

Having put together a solid offering portfolio through a successful integration of Latin American cybersecurity leaders since 2019, Cybolt now serves over 200 clients across key sectors including Finance, Retail, Manufacturing, and Public.

In a highly fragmented cybersecurity market, with over 4,000 providers, Cybolt stands out by offering comprehensive services under one roof, eliminating the need for multiple vendors. With its operative strength in Mexico and an emerging presence in Illinois, Tennessee, and California, Cybolt continues to rapidly expand its footprint in the U.S., reinforcing its commitment to safeguarding businesses.

Mauricio Rioseco, Chairman, Cybolt, said, *"We're thrilled to announce our second U.S. partnership within a month; this time with Cyber Guards, a champion for small and mid-sized companies in the cybersecurity realm. Each partner who joins us contributes to shaping our future. We're building a path that benefits our customers, as we position ourselves as market leaders in cybersecurity. Together, we're poised to make a significant impact in the cybersecurity world."*

Erik Holmes, founder and CEO, Cyber Guards, added, *"At Cyber Guards, we are thrilled to announce our union with Cybolt. This exciting partnership expands our capabilities and strengthens our commitment to delivering exceptional service to our customers in Tennessee and throughout the U.S. Joining forces with Cybolt represents a significant milestone in our journey, enhancing our ability to innovate and grow in the ever-evolving cybersecurity landscape."*
