

Origins of Interplanetary Science and Life on Mars Symposium

June 8, 2017, 5-7pm & 8-10pm @ The Rio Theater

The question since the beginning of time now has been answered

SANTA CRUZ, CALIFORNIA – April 18, 2017 - Mars Life HD LLC is presenting the Origins of Interplanetary Science and Life on Mars Symposium at The Rio Theater. More information on the Symposium is available at www.marslifehd.com. Mars Life expects to announce more upcoming events throughout 2017 and beyond.

Our pictures and membership services go on sale worldwide exclusively at www.marslifehd.com. Guided relentlessly by Dr. Douglas A. O'Handley. Mars Life HD LLC has copyrighted and released the extraterrestrial and educational findings of recent rovers on the planet Mars.

The new Mars Life HD LLC pictures offer an unprecedented industry first in interplanetary paleontology, which is like going back in time itself to view the truth. With Mars Life HD LLC pictures, Mars Life set out to design a one of a kind mobile experience, which enables one to view real life on Mars while remaining here on Earth.
